Preface

xxiii

Part I BASIC FOUNDATIONS OF CARDIOLOGY

1. *Introduction to the Techniques of Molecular Biology and the Molecular Basis for Cardiac Growth*
Robert Roberts, M.D.

3

2. *Cellular Biology of Blood Vessels*

Kathy K. Grendling, Ph.D. ■ R. Wayne Alexander, M.D., Ph.D.

31

3. *Structure and Function of Cardiovascular Membranes, Channels, and Receptors*

Gary L. Stiles, M.D.

47

4. *Anatomy of the Heart*

Bruce F. Waller, M.D. ■ Robert C. Schlam, M.D.

59

5. *Normal Physiology of the Cardiovascular System*

Robert C. Schlam, M.D. ■ Edmund H. Sonnenblick, M.D.

113

- 6A. *The Physiologic Chemistry of Energy Production in the Heart*

E. Douglas Levandoski, Ph.D. ■ Joanne S. Ingwall, Ph.D.

153

- 6B. *Molecular and Cellular Control of Cardiac Growth and Hypertrophy*

Howard E. Morgan, M.D. ■ Kenneth M. Baker, M.D.

165

7. *Thrombus Formation and Dissolution*

Marschall S. Runge, M.D., Ph.D. ■ Lawrence A. Harker, M.D.

173

8. *Incidence, Prevalence, and Mortality of Cardiovascular Diseases*

William B. Kannel, M.D., M.P.H. ■ Thomas J. Thom, B.A.

185

Part II GENERAL EVALUATION OF THE PATIENT

Section A. History and Physical Examination

- 9A. *Introduction to the General Evaluation of the Patient*

Robert A. O'Rourke, M.D.

201

- 9B. *The History: Symptoms and Past Events Related to Cardiovascular Disease*

J. Willis Hurst, M.D. ■ Douglas C. Morris, M.D.

205

10. **General Examination of the Patient** 217
Robert A. O'Rourke, M.D. ■ Mark E. Silverman, M.D. ■ Robert C. Schlant, M.D.
11. **Auscultation of the Heart** 253
James A. Sbaer, M.D. ■ Rosemarie Salerni, M.D.
12. **Examination of the Retina** 315
W. Banks Anderson, Jr., M.D.

Section B. Frequently Performed Diagnostic and Monitoring Procedures

13. **The Resting Electrocardiogram** 321
Agustin Castellanos, M.D. ■ Kenneth M. Kessler, M.D. ■ R.J. Myerburg, M.D.
14. **The Chest Roentgenogram and Cardiac Fluoroscopy** 357
James T. T. Chen, M.D.
15. **The Echocardiogram** 375
Joel M. Felner, M.D. ■ Randolph P. Martin, M.D.
16. **The Exercise Test** 423
Gerald F. Fletcher, M.D. ■ Robert C. Schlant, M.D.
17. **Techniques of Evaluating Pulmonary Function in Patients with Cardiac Disease** 441
Eric G. Honig, M.D.
18. **Hemodynamic Monitoring in Critical Care Units** 447
Kanu Chatterjee, M.B.

Part III THE MAJOR CARDIOVASCULAR SYMPTOMS

19. **Chest Pain** 459
Robert A. O'Rourke, M.D.
20. **Dyspnea and Fatigue** 469
R. Wayne Alexander, M.D., Ph.D.
21. **Syncope, Presyncope, Palpitations, Sudden Death** 475
Bernardo Stein, M.D. ■ Robert Roberts, M.D.
22. **Miscellaneous Cardiovascular Symptoms and Signs** 481
Robert C. Schlant, M.D. ■ Edmund H. Sonnenblick, M.D.

Part IV HEART FAILURE

Section A. Basic and Clinical Aspects

23. **Assessment of Cardiac Function and Myocardial Contractility** 487
John Ross, Jr., M.D.
24. **High-Cardiac-Output States** 503
Noble O. Fowler, M.D.
25. **Pathophysiology of Heart Failure** 515
Robert C. Schlant, M.D. ■ Edmund H. Sonnenblick, M.D.
26. **Diagnosis and Therapy of Heart Failure** 557
Jay N. Cohn, M.D. ■ Edmund H. Sonnenblick, M.D.

Section B. Drugs and Procedures Used to Treat Patients with Heart Failure

27. **Digitalis** 573
Frank I. Marcus, M.D.
28. **Nonglycosidic Cardioactive Agents** 589
Thierry H. Lejemtel, M.D. ■ Edmund H. Sonnenblick, M.D.
29. **Diuretics** 595
Juha P. Kokko, M.D., Ph.D.
30. **Drugs Used to Control Vascular Resistance and Capacitance** 611
Jay N. Cohn, M.D.

927	Arnold K. Weisler, M.D.	
907	Richard P. Lantz, M.D. ■ Bartolo Bonadonna, M.D. ■ Stephen F. Schul, M.D.	Diagnosis and Management of Syncope
907	Joseph S. Averb, M.D. ■ Richard C. Dwyer, M.D.	Pathophysiology, Diagnosis, and Management of Cardiac Shock
897	Ross D. Heichen, M.D. ■ Robert C. Summers, M.D.	Technique of Esophageal Electrocardiography
893	Paul F. Walter, M.D.	Technique of Signal-Averaged Electrocardiography
881	Harold Abler, M.D.	Technique of Electrophysiological Testing
873	R. Joe Noble, M.D. ■ Douglas P. Zipes, M.D.	Long-Term Continuous Electrocardiographic Recording
863	James L. Cox, M.D.	Surgical Treatment of Cardiac Arrhythmias
859	Robin H. Sobelmann, M.D.	Treatment of Cardiac Arrhythmias with Catheter Ablative Techniques
847	Ross Brooks, M.D. ■ Jeremy N. Kuskin, M.D.	The Implantable Cardioverter Defibrillator
843	Bernard Lown, M.D. ■ Douglas K. de Sisto, M.D.	Cardioversion and Defibrillation
815	Harry G. Mond, M.D.	Permanent Cardiac Pacemakers: Techniques of Implantation, Testing, and Surveillance
807	Ross D. Fisher, M.D. ■ Marc Visk, M.D. ■ E. Pendleton Alexander, M.D.	Temporary Cardiac Pacing
775	Raymond L. Wooley, M.D.; Ph.D.	Antiarrhythmic Drugs
759	David F. Kardon, M.D. ■ Charles Fisch, M.D.	Electrolytes and the Heart
705	Robert J. Myerburg, M.D. ■ Kenneth H. Kessler, M.D. ■ Agustín Castellanos, M.D.	Recognition, Clinical Assessment, and Management of Arrhythmias and Conduction Disturbances
659	Albert L. Waldo, M.D. ■ Andrew L. Wilf, Ph.D.	Mechanisms of Cardiac Arrhythmias and Conduction Disturbances
645	J. Thomas Bigger, Jr., M.D.	The Electrical Activity of the Heart
Section A. Electrophysiology, Diagnosis, and Management		
Part V. DISORDERS OF RHYTHM OR CONDUCTION		
637	John F. Lutz, M.D.	The Technique of Myocardial Biopsy
637	Sharon A. Hunt, M.D. ■ John S. Schroder, M.D. ■ Margaret E. Billingham, M.D.	Cardiac Transplantation
637	Joseph M. Craver, M.D. ■ Mark W. Connolly, M.D.	Assist Devices
637		The Percutaneous Intraaortic Balloon Pump and Ventricular
Section B. Special Diagnostic Procedures		
645		Long-Term Continuous Electrocardiographic Recording
873	R. Joe Noble, M.D. ■ Douglas P. Zipes, M.D.	Long-Term Continuous Electrocardiographic Recording
881	Harold Abler, M.D.	Technique of Electrophysiological Testing
893	Paul F. Walter, M.D.	Technique of Signal-Averaged Electrocardiography
897	Ross D. Heichen, M.D. ■ Robert C. Summers, M.D.	Technique of Esophageal Electrocardiography
Part VI. SHOCK, SYNCOPÉ, SUDDEN DEATH, AND CARDIO-PULMONARY RESUSCITATION.		
49	Joseph S. Averb, M.D. ■ Richard C. Dwyer, M.D.	Pathophysiology, Diagnosis, and Management of Cardiac Shock
50	Richard P. Lantz, M.D. ■ Bartolo Bonadonna, M.D. ■ Stephen F. Schul, M.D.	Diagnosis and Management of Syncope

51. **The Mechanisms, Predictors, and Prevention of Sudden Cardiac Death** 947
Leonard A. Cobb, M.D.
52. **Cardiopulmonary Resuscitation and the Subsequent Management of the Patient** 959
Nisha Chibber Chandra, M.D. ■ Myron L. Weisfeldt, M.D.

Part VII CORONARY HEART DISEASE

Section A. Basic Considerations

53. **The Biochemistry of Blood Lipid Regulation and the Assessment of Lipid Abnormalities** 973
Peter Jones, M.D. ■ Josef Patsch, M.D. ■ Antonio M. Gotto, Jr., M.D., D.Phil.
54. **Factors Influencing Atherogenesis** 989
Russell Ross, Ph.D.
55. **The Pathology of Coronary Atherosclerosis** 1009
Michael J. Davies, M.D.
56. **The Coronary Ischemic Syndromes: Relationship to the Biology of Atherosclerosis** 1021
R. Wayne Alexander, M.D., Ph.D.
57. **Pathophysiology of Myocardial Ischemia** 1033
Stephen M. Factor, M.D. ■ Robert J. Bache, M.D.

Section B. Clinical Considerations

58. **Diagnosis and Management of Chronic Ischemic Heart Disease** 1055
Robert C. Schlant, M.D. ■ R. Wayne Alexander, M.D.
59. **Diagnosis and Management of Patients with Unstable Angina** 1083
Pierre Théroux, M.D. ■ David Waters, M.D.
60. **Pathophysiology, Recognition, and Treatment of Acute Myocardial Infarction and Its Complications** 1107
Robert Roberts, M.D. ■ Douglas C. Morris, M.D. ■ Craig M. Pratt, M.D. ■ R. Wayne Alexander, M.D., Ph.D.
61. **The Natural History of Atherosclerotic Coronary Heart Disease** 1185
Gottlieb C. Friesinger, M.D.
62. **Prevention of Coronary Artery Disease** 1205
Charles E. Rackley, M.D. ■ Robert C. Schlant, M.D.
63. **Rehabilitation of the Patient with Coronary Disease** 1223
Nanette Kass Wenger, M.D.
64. **Nonatherosclerotic Coronary Heart Disease** 1239
Bruce F. Waller, M.D.

Section C. Pharmacology of Drugs Used to Treat Patients with Known or Potential Coronary Artery Disease

65. **The Pharmacologic Management of Hyperlipidemia** 1263
Scott M. Grundy, M.D., Ph.D.
66. **Beta-Adrenergic Blocking Drugs** 1271
William H. Frishman, M.D. ■ Edmund H. Sonnenblick, M.D.
67. **Calcium Channel Blockers** 1291
William H. Frishman, M.D. ■ Edmund H. Sonnenblick, M.D.
68. **The Pharmacology of Anticoagulants and Platelet Inhibitor Drugs** 1309
Bernardo Stein, M.D. ■ Valentin Fuster, M.D., Ph.D.
69. **Pharmacology of Thrombolytic Agents** 1327
D. Collen, M.D., Ph.D. ■ M. Verstraete, M.D., Ph.D.

Section D. Interventional and Surgical Techniques to Treat Patients with Coronary Artery Disease		
70.	Indications for Percutaneous Transluminal Coronary Angioplasty and Atherectomy Spencer B. King III, M.D. ■ John S. Douglas, Jr., M.D.	1339
71.	Techniques of Percutaneous Transluminal Angioplasty and Atherectomy of the Coronary Arteries John S. Douglas, Jr., M.D. ■ Spencer B. King III, M.D.	1345
72.	The Use of the Laser in the Treatment of Coronary and Peripheral Arterial Obstruction George S. Abela, M.D., M.Sc. ■ C. Richard Conti, M.D.	1359
73.	The Surgical Treatment of Atherosclerotic Coronary Heart Disease Floyd D. Loop, M.D.	1367
74.	Techniques for the Surgical Treatment of Atherosclerotic Coronary Artery Disease and Its Complications Ellis L. Jones, M.D. ■ Charles R. Hatcher, Jr., M.D.	1381
Part VIII SYSTEMIC ARTERIAL HYPERTENSION		
75.	Pathophysiology of Systemic Arterial Hypertension Eduard D. Frohlich, M.D.	1391
76.	Diagnostic Evaluation of the Patient with Systemic Arterial Hypertension W. Dallas Hall, M.D. ■ Gary L. Wollam, M.D. ■ Elbert P. Tuttle, Jr., M.D.	1403
77.	Treatment of Patients with Systemic Arterial Hypertension Ray W. Gifford, Jr., M.D.	1427
Part IX VALVULAR HEART DISEASE		
78.	Acute Rheumatic Fever Edward L. Kaplan, M.D.	1451
79.	Aortic Valvular Disease Elliot Rapaport, M.D. ■ Charles E. Rackley, M.D. ■ Laurence H. Cohn, M.D.	1457
80.	Mitral Valve Disease William H. Gaasch, M.D. ■ Robert A. O'Rourke, M.D. ■ Laurence H. Cohn, M.D. ■ Charles E. Rackley, M.D.	1483
81.	Tricuspid and Pulmonary Valve Disease Charles E. Rackley, M.D. ■ Robert B. Wallace, M.D. ■ Jesse E. Edwards, M.D. ■ Nevin M. Katz, M.D.	1519
82.	Multivalvular Disease Charles E. Rackley, M.D. ■ Jesse E. Edwards, M.D. ■ Robert B. Karp, M.D.	1531
83.	Artificial Valve Disease E. William Hancock, M.D.	1539
84.	Techniques of Valvular Surgery John Parker Gott, M.D. ■ Robert A. Guyton, M.D.	1547
85.	Surgical Reconstruction for Regurgitant Lesions of the Mitral Valve Joseph M. Craver, M.D.	1557
86.	Percutaneous Balloon Valvotomy Peter C. Block, M.D.	1567
Part X MYOCARDIAL, PERICARDIAL, AND ENDOCARDIAL DISEASE		
87.	Classification of Cardiomyopathy Jay W. Mason, M.D.	1585
88.	Myocarditis and Specific Myocardial Diseases John B. O'Connell, M.D. ■ Dale G. Renlund, M.D.	1591

128. **Phlebography** 2219
 Renate L. Soulen, M.D. ■ Michael C. Soulen, M.D.
129. **Impedance Plethysmography** 2223
 Thom W. Rooke, M.D.

Part XIX SPECIAL DIAGNOSTIC ULTRASOUND TECHNIQUES USED IN THE EVALUATION OF THE CARDIOVASCULAR SYSTEM

130. **Technique of Doppler and Color Flow Doppler in the Evaluation of Cardiac Disorders and Function** 2229
 Alan S. Peariman, M.D.
131. **Transesophageal Echocardiography** 2253
 Alan Appelbe, M.B.B.S. ■ Randolph P. Martin, M.D.
132. **Exercise and Stress Echocardiographic Testing** 2267
 Michael H. Crauford, M.D. ■ Charles F. Presti, M.D.
133. **Intravascular Ultrasound** 2273
 Steve E. Nissen, M.D.

Part XX DIAGNOSTIC RADIONUCLIDE AND NUCLEAR TECHNIQUES USED IN THE EVALUATION OF THE CARDIOVASCULAR SYSTEM

134. **Nuclear Cardiology** 2281
 Lynne L. Johnson, M.D. ■ Gerald M. Pobost, M.D.
135. **Computed Tomography of the Heart** 2325
 Bruce H. Brundage, M.D.
136. **Magnetic Resonance Imaging of the Heart and Great Vessels** 2339
 Roderic I. Pettigrew, Ph.D., M.D.
137. **Positron Emission Tomography** 2361
 Heinrich R. Schelbert, M.D.

Part XXI DIAGNOSTIC TECHNIQUES OF CARDIAC CATHETERIZATION AND VASCULAR ANGIOGRAPHY

138. **Techniques of Cardiac Catheterization Including Coronary Arteriography** 2381
 Robert H. Franck, M.D. ■ Spencer B. King, III, M.D. ■ John S. Douglas, Jr., M.D.

Part XXII THE HEART, ANESTHESIA AND SURGERY

139. **Perioperative Evaluation and Management of Patients with Known or Suspected Cardiovascular Disease Who Undergo Noncardiac Surgery** 2421
 Robert C. Schlant, M.D.
140. **Anesthesia and the Patient with Cardiovascular Disease** 2433
 David L. Reich, M.D. ■ Joel A. Kaplan, M.D.
141. **Cardiopulmonary Bypass and Intraoperative Protection** 2443
 Mark W. Connolly, M.D. ■ Robert A. Guyton, M.D.

Part XXIII INSURANCE AND LEGAL PROBLEMS

142. **Insurance Problems of Patients with Heart Disease** 2453
 M. Irené Ferrer, M.D. ■ Joseph A. Wilber, M.D.
143. **Cardiac Evaluations for Legal Purposes** 2461
 Elliot L. Sagall, M.D.
